FURTHER THOUGHTS: Ginny Raska comments: As the author of the article, *Get 'Em While They're Hot*, (LMC N/D 08) I would like to comment on *Breaking Dawn*, the newest book in Stephenie Meyer's Twilight series. The book was not out when I wrote the article. I noted in the article that this series was probably safe for middle school, but most reviewers recommend *Breaking Dawn* for 9th grade and up. Edward and Bella get married and do go far beyond the kiss mentioned in my article, though reviews indicate that the sex is not graphic. *Editor's NOTE: Thank you, Ginny, for making sure our readers have the most up-to-date information as they work to select the best materials for their students.*
